

Web Development

```
graph TD; A[Web Development] --> B[Web]; A --> C[Development];
```

The diagram illustrates the components of web development. At the top, a box labeled 'Web Development' has two arrows pointing down to two separate boxes: 'Web' on the left and 'Development' on the right. Each box contains a definition and a green checkmark icon.

Web

It refers to websites , web pages or anything that works over the internet

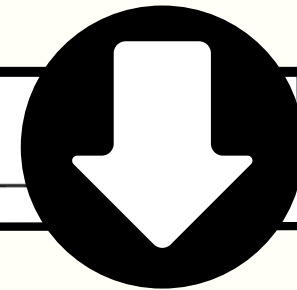

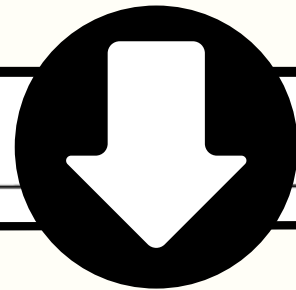

Development

Building the application completely from scratch.

Web Development

Back End

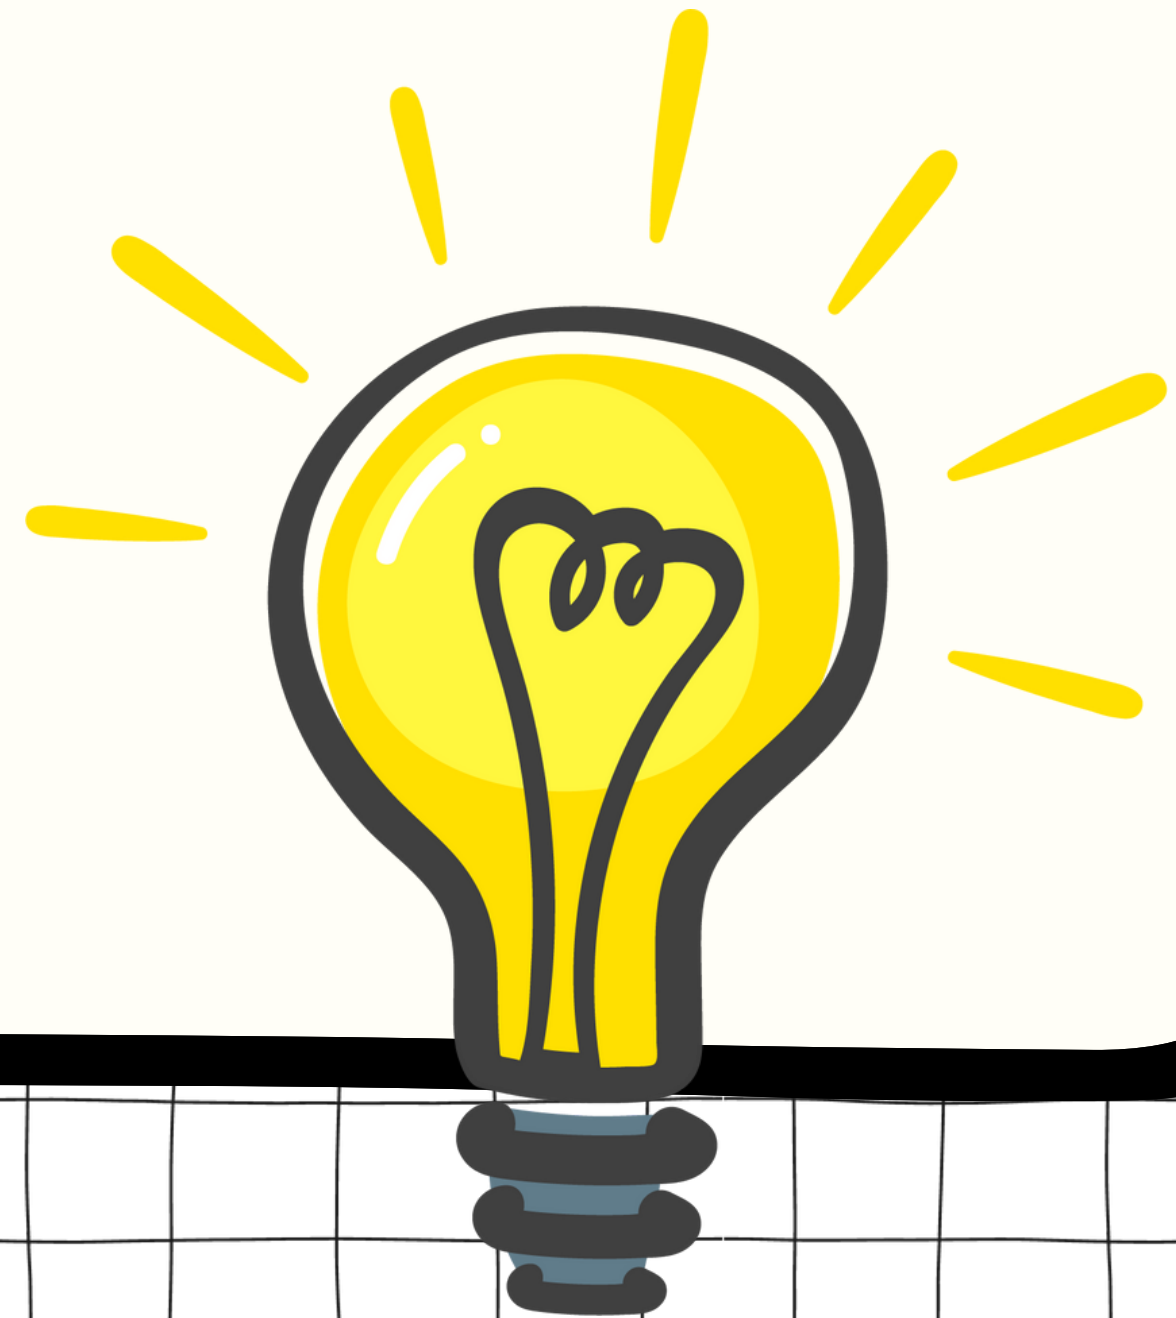

Basics

HTML

HyperText Markup Language

Introduction

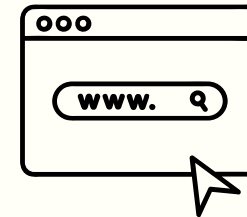

It is the standard markup language used to create and design documents on the World Wide Web. It serves as the backbone of web content by providing the basic structure for web pages.

~**Tim Berners-Lee**

Hyper Text Markup Language

HyperText

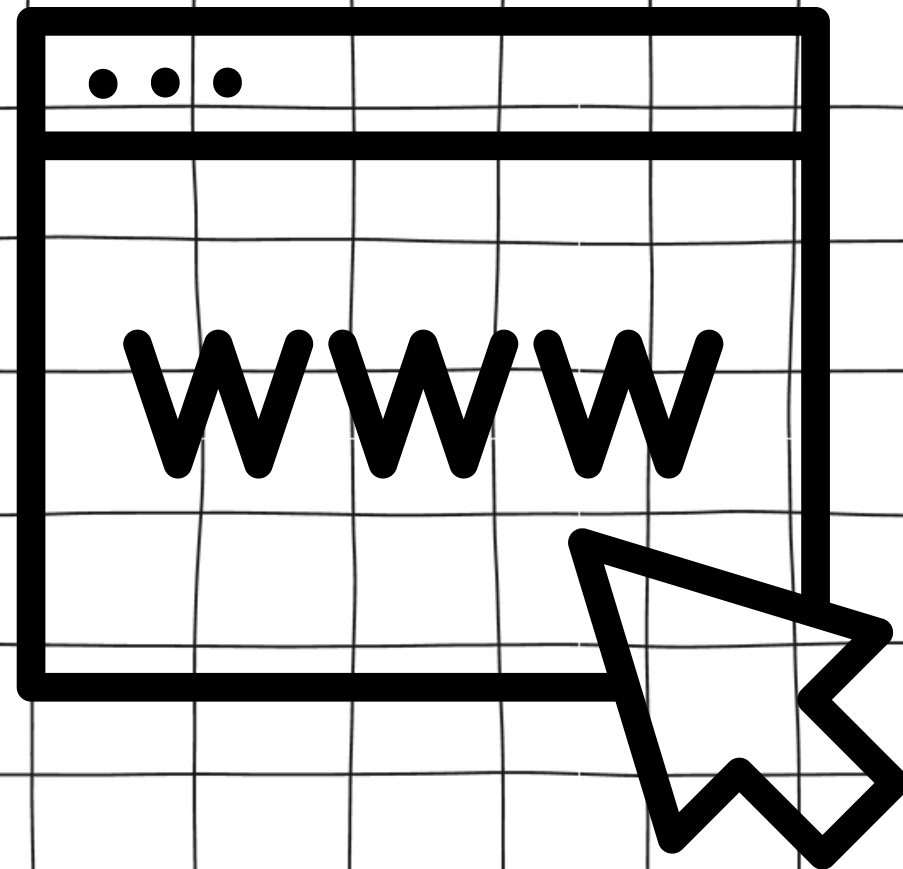

Linking to multiple webpages on website.

Markup

It indicates how the text should be formatted, printed or displayed.

...

HTML tells the browser how to display the content.
